Contents of Vol. 25

Vol. 25, No. 1

Editorial v

Desulfurization of fuels with calcium-based sorbents
J. Abbasian, A. Rehmat, D. Leppin (Chicago, IL, U.S.A.) and D.D. Banerjee (Champaign, IL, U.S.A.) 1

A review of chlorine-induced corrosion in underground mines and coal preparation plants
S.B. Lalvani, J.H. Swisher and M.A. Pagano (Carbondale, IL, U.S.A.) 17

Extraction of oil sand bitumens with supercritical water
N. Berkowitz and J. Calderon (Edmonton, Canada) 33

Tritium as a tracer in coal liquefaction. Part II. Reactions of tritiated hydrogen molecules and Datong coal
T. Kabe, K. Yamamoto, K. Ueda and T. Horimatsu (Tokyo, Japan) 45

Effect of coal rank on molecular probe chromatography of coke and char
O.K. Guha and J. Roy (Bihar, India) 57

Nonaqueous potentiometric determination of acidities of model compounds, coals and coal derived products
P.J. Redlich, W.R. Jackson, M. Marshall (Clayton, Vict., Australia) and F.P. Larkins (Hobart, Tasmania, Australia) 67

The characterization of organomineral components of low-rank coals
M.R. Martinez-Tarazona (Oviedo, Spain), J.M. Palacios (Madrid, Spain), A. Martínez-Alonso and J.M.D. Tascón (Oviedo, Spain) 81

Vol. 25, No. 2

Physical testing of fuel briquettes
S.R. Richards (Lower Hutt, New Zealand) 89

Unocal's Parachute Creek oil shale project
J.H. Duir, A.C. Randle and C.P. Reeg (Brea, CA, U.S.A.) 101

Properties of asphaltenes derived from liquefying coal with anthracene oil or bitumen
M.L. Selucky, K.F. Schulz and N. Cyr (Devon, Alt., Canada) 119

Prediction of coal reactivity during combustion and gasification by using petrographic data
E. Furimsky, A.D. Palmer (Ottawa, Ont., Canada), W.D. Kalkreuth, A.R. Cameron (Galgary, Alt., Canada) and G. Kovacik (Nisku, Alt., Canada) 135

Application of zeolite-based catalyst to hydrocracking of coal-derived liquids
H. Shimada, T. Sato, Y. Yoshimura (Ibaraki, Japan), A. Hinata, S. Yoshitomi, A. Castillo Mares (Tokyo, Japan) and A. Nishijima (Ibaraki, Japan) 153

Newsnotes 167

Vol. 25, No. 3

Briquetting peat and peat–coal mixtures
S.R. Richards (Lower Hutt, New Zealand) 175

Dependence of the liquefaction behaviour of some high-sulphur Turkish lignites on their properties
A. Erdem-Şenatalar, S. Küçübayrak and E. Kadıoğlu (Istanbul, Turkey)..... 191

The influence of inorganic matter on the pyrolysis of Canadian lignite in a fluidized bed
A.J. Royce, S. Miyawaki, J. Piskorz, D.S. Scott and S. Fouda (Waterloo, Ont., Canada)..... 201

Comparison of the liquefaction yields of coals with their composition, free radical density and thermal parameters
M.M. Ibrahim and M.S. Seehra (Morgantown, WV, U.S.A.) and R.A. Keogh (Lexington, KY, U.S.A.) 215

Optimum sulfation temperature for sorbents used in fluidized bed coal combustion
M. Zaki Haji-Sulaiman, A.W. Scaroni and S. Yavuzkurt (University Park, PA, U.S.A.) 227

Comparative study of residues from dry hydrogenation and low temperature pyrolysis
A.M. Mastral, B. Rubio and M.T. Izquierdo (Zaragoza, Spain) and F.J. Fañanas (Oviedo, Spain) 241

Electroreduction of fluorene, a 5-membered ring-containing aromatic component of coal
W. Zhingzhong, (Shanxi, P.R., China) and C. Braekman-Danheux, B. Stephane and A. Fontana (Brussels, Belgium) 251
